

JET CANDY™

PRESS RELEASE | The Retreat @ ILTM Cannes, December 6 - 9 2021

Travel Better, Naturally

Jet Candy has created an all-new range of natural travel products, designed to improve the experience of both long-haul and ground travel, and to help you cope with every aspect of your journey, from start to finish.

Developed as an ensemble, this considered range of travel essentials counts three brand new products, each one thoughtfully sourced from the finest producers in their fields and created especially for Jet Candy.

Initially founded with **Jet Candy Plane Remedy** – an all-natural homeopathic remedy for the ailments of long-haul travel & jet lag – the “family” has grown during the last 12 months to include:

Jet Candy Travel Essence: a 10ml five-flower, botanical liquid travel remedy to relieve the symptoms of jet lag and air travel sickness.

Jet Candy Relax+Renew Essential Oil: a blend of two essential oils, English lavender and garden roses, for use on the pressure points and breathe-in to relax at any time.

Jet Candy Hand Sanitizer Gel: WHO approved (EN FF14476) this rose-scented gel created and produced in France for Jet Candy is hospital grade to protect against COVID-19 and is 99.9% effective in killing germs and bacteria.

Singularly, or all together, these remedies look after you internally, taking care of body, soul and mind, in the air and on the ground. Read the Travel Better, Naturally tips for jet lag, on appintheir ([here](#)), our go-to travel app, to book and manage your travels in one place.

All three new products, Jet Candy Travel Essence, Jet Candy Relax+Renew and Jet Candy Hand Sanitizer, are packaged in recycled PET/glass amber bottles, which protects the product inside from photo damage, resulting in longer-lasting, higher quality product to better protect you.
